

I am writing in regards to keeping K-LOVE on the radio. I listen to K-LOVE on my way to work because it puts me in a positive frame of mind. I listen to K-LOVE at work because I like the music & the positive & encouraging impact it has. We only receive one other FM radio station at work, & I find that sometimes the music or the comments aren't morally pleasing for children to hear. I know that in my rural community there are many people who listen to K-LOVE & are always pleased to hear it on the radio at work. Since the United States of America is a land of free choice I believe I should have the right to listen to K-LOVE anytime that I want to. This station is very important to my spiritual, emotional, & mental well-being. Please do not take away my opportunity to be filled with positive influences on a daily basis.
